SPOTLIGHT SOLUTIONS **NeoCon**

TRANSFORMING
SPACES WHERE PEOPLE
LIVE & WORK

Chief focuses on commercial AV flat panel and projector mounts. Home Theater, Workstation and Custom Display Solutions are also part of the Chief product offering. Known in the industry for high quality mounts with both Custom and Universal options, as well as an extensive accessories line, Chief is focused on professional installers worldwide.

For over 100 years, Da-Lite has been designing, manufacturing and marketing the most comprehensive line of projection screens in the world. Today, we offer our widest selection ever of proprietary projection screen surfaces and materials in our history.

Middle Atlantic offers innovative system enclosures, tech-enabled furniture and power products as well as Wiremold cable management and C2G connectivity solutions for complete and unmatched AV system support and protection.

Vaddio manufactures professional quality PTZ cameras, Pro AV solutions and a full suite of Unified Communication and Collaboration systems. Combining enterprise class performance and industry leading support, Vaddio products enhance any AV experience by elevating the science of communication with The Art of Easy.

Legrand is the global specialist in electrical and digital building infrastructures. Its comprehensive offering of solutions for commercial, industrial and residential markets makes it a benchmark for customers worldwide. In the AV space, Legrand offers an extended portfolio of branded audiovisual products including flat panel mounting solutions, projector mounts, projection screens, equipment racks, PTZ cameras and furniture for AV markets. Its innovative products are sold under the Chief, Da-Lite, Middle Atlantic, Projecta, Vaddio and Sanus brand names. All brands work together to provide a breadth of product, strength of longevity, and advantage of superior customer service and support.

CHIEF TURNED 40!

Chief* is celebrating 40 years of innovation. Our founder Bob Brantley, whose nickname is Chief, wanted to build a better slide projector stand. Working out of his garage, he revolutionized the AV industry by introducing independent adjustments that made it faster and easier to align the projected image. While we've long since moved out of the garage, we have never lost sight of our roots and continuously strive to build better solutions that enhance the end user experience.

Kontour KX Series monitor arms solve challenges with shallow desktops

STYLE WITH STRENGTH AND FLEXIBILITY

Kontour™ Series Monitor Arms create efficient, ergonomic workspaces that improve employee wellness and increase productivity. Elegantly designed with the strength of a forged aluminum body, Kontour monitor arms offer a broad scope of benefits, like extreme fingertip tilt adjustment, easy installation and stylish design at a great value.

KX Series Monitor Arms optimize the depth of dual-, triple- and quad-monitor installs. The exclusive FlexLink design maximizes workspace in shallow desk environments.

K1 Series Monitor Arms create flexible, functional workspaces in a wide variety of settings. The ergonomic designs feature dynamic height adjustment using gas cylinder technology, and can be fine-tuned for different monitor weights.

K2 Series Monitor Arms provide heavy-duty support with strong, stylish and ergonomic designs. Monitor heights can be adjusted on desk models by sliding the arm vertically along the column.

K3 Series Static Array Monitor Arms are designed with modularity in mind to create efficient, productive and ergonomic workspaces with a wide range of monitor sizes and configurations.

K4 Series Depth-Adjustable Array Monitor Arms provide an aesthetic solution with focal-depth adjustment to let multiple users re-position the bank of screens to their preferred viewing distance.

KONTOUR™ KX LOW-PROFILE MONITOR ARMS

With office space densification, monitor arm articulation is of even greater importance allowing user to push their displays as far away as possible when using the desktop for other tasks. Chief's new premium Kontour KX Series Monitor Arms provide the most complete range of motion available. Our exclusive Flexlink design optimizes the depth of dual-, triple- and quad-monitor installs for shallow depth desktops, while still providing full range of motion for screen sharing with colleagues.

C3 LOW-PROFILE CREDENZA

Middle Atlantic Products®

The 10” deep ADA-compliant C3 Credenza series provides modern contrasted finishes and versatile storage options. At 10” deep, C3 Credenzas provide minimal footprint that is perfect underneath displays in high traffic areas like hallways and meeting spaces. Middle Atlantic’s unmatched Frame to Furniture design process allows for maximum uptime and reliability that gets your AV gear installed and ready to use quickly. With the hallmark Middle Atlantic systems approach, each credenza comes with power and thermal management built in, making it truly an all-in-one piece of AV-ready furniture.

Lead THE WAY

Chief's Kontour Series monitor mounts qualify for LEED® Materials & Resources credits 4.1 and 4.2 for recycled content. Kontour mounts also contribute to proper ergonomic workstations, which may qualify for an Innovation in Design credit.
