Chief's most popular infrastructure solutions are getting amped up with SurgeX's non-sacrificial surge protection and noise filtration. The exclusive line of co-developed products provide low-profile storage and power protection in a single SKU to simplify ordering and installation.

The Benefits of SurgeX

Patented non-sacrificial, multi-stage technology includes industrial-grade surge protection and EMI/RFI noise filtration.

Improves the reliability and functionality of equipment by safeguarding from high energy transients, lightning strikes, and electronic noise events that can cause gear degradation and downtime.

Features non-volatile spike protection with LED power indicator.

Non-current limiting design passes full power on a regular circuit; redundant protection circuits.
