

UPGRADE EFFICIENTLY

As SMART® projector solutions wear out over time, school districts are looking for cost-effective alternatives to replacing complete interactive systems. Chief's retro adapter bracket allows for easy projector upgrades. The bracket works with the existing arm, so there is no need to replace the board and/or mount – saving time and cost.

WBAUF1 FEATURES

- Compatible across three brands of projectors
- Quickly integrates a new projector to existing equipment
- Includes All-Points™ security hardware
- Pre-positions various projector lenses on whiteboard
