

SMA-620 SUSPENDED CEILING TRACK CLIP FOR SMART-LIFT SL-236

The SMA-620 suspended ceiling track clip allows you to secure ceiling grid to the Smart-Lift SL-236 for suspended ceiling applications.

Unpack carton and check contents:

- (8) Suspended Ceiling Track Clip

INSTALLATION INSTRUCTIONS

1. Determine where the ceiling grid will intersect with the Smart-Lift (see Figure 1).
2. Remove surrounding ceiling tile.
3. Cut ceiling grid to appropriate length and trim end to fit into Smart-Lift.
4. Install the ceiling track clip, with the slot of the clip directly in line with the intersection point, into the Smart-Lift as shown in Figure 2.
5. Insert the grid into ceiling track clip (see Figure 3).
6. Cut surrounding ceiling tile to appropriate size.
7. Repeat previous steps as necessary.
8. Replace surrounding ceiling tile.
