

# Da-Tex

Tensioned Projection Surface - standard resolution

**Standard:**  
UL 2818 - 2013 Standard for Chemical Emissions for Building Materials, Finishes and Furnishings

**Certification number:**  
Greenguard Gold - 5106-420

## REAR PROJECTION

### Feature:

Reflectivity and contrast

### Application:

Rear projection with uncontrolled ambient light

Da-Tex® is a vinyl, gray, rear projection surface that works well in high ambient light with a reduced viewing angle. It offers high transmission and low reflective values for optimal viewing. It yields excellent color rendition and image contrast. Seamless in any width up to 488 cm in height.

## Screen fabric specifications:

Gain	1.3	Ambient light resistance	good performance
Viewing Angle	60°	Coating	rear
Application	rear projection	Coating type	reflective
Base material	vinyl	Thickness	~0.31 mm
Fire retardancy	B2 DIN4102-1 M2 NFP 92-503	Weight	~425 g/m <sup>2</sup>
Black backing:	no	Ability to seam	good
Edge Blending properties	not suitable	Tear strength	good
Size limitations	488 cm high × any width	Foldable	yes
Seamless	up to a height of 488 cm	Cleanable	yes
GreenGuard Certification	Yes	Screen type	DIN 19045-4 - R (rear)
