

Matte White (Non-Tensioned)

Non-Tensioned Projection Surface - standard resolution

Standard:
UL 2818 - 2013 Standard for Chemical Emissions for Building Materials, Finishes and Furnishings

Certification number:
Greenguard Gold - 4710-420

FRONT PROJECTION

Feature:

Color neutral

Application:

A good and versatile screen material for a wide range of non high-definition applications

Matte White is a fiberglass surface for non high-definition projection and environments with controllable ambient light that preserves color as well as black and white images. Seamless sizes vary by product.

Screen fabric specifications:

Gain	1.0	GreenGuard certification	yes
Viewing Angle	120°	Ambient light resistance	moderate performance
Application	front projection	Coating	front
Base material	fiberglass	Coating type	color neutral
Fire retardancy	B2 DIN4102-1 M2 NFP 92-503	Thickness	~0.44 mm*
Black backing:	yes	Weight	~635 g/m ²
Edge Blending properties	poor	Ability to seam	average
Opacity rating	> 99%	Tear strength	good
Size limitations	vary per product	Foldable	no
Seamless	vary per product	Cleanable	yes
		Screen type	DIN 19045-4 - D (Diffuse)

* Thickness and weight with Matte White non-tensioned can vary per product.
