AV Bridge Mini
HD Audio/Video Encoder

The Easy Way to Encode, Capture and Stream Content

Ideal for lecture capture, conference rooms and video conferencing installations, the AV Bridge Mini makes it simple to encode, capture and stream AV content. With AV Bridge Mini, you can bridge any high-definition HDMI and audio source into soft conferencing applications such as Skype for Business, Zoom and WebEx through the standard USB 3.0 interface. Creating production-quality live streams on platforms like YouTube Live, UStream, LiveStream and Panopto has never been easier with the AV Bridge Mini's flexible RTMP capabilities.

The AV Bridge Mini includes all the features that integrators love about the AV Bridge and AV Bridge Conference, along with some important updates – all in a convenient, smaller half-rack unit size.

Features

- Integrates pro AV sources or systems into software conferencing codec or live streaming applications
- Outputs simultaneous USB 3.0 and IP streaming with up to 1080p quality
- PoE powered – easily extends power and connectivity
- Easy to install – ½ rack unit size fits anywhere
- HDMI input accepts 4K (3840x2160) signals and encodes and scales appropriately
- Simple user interface and control - set and forget
- Mixer for controlling audio levels and outputs
- Seamlessly interfaces with Vaddio’s HD cameras, presentation systems, video mixing consoles, and other pro audio products
- Integrates with external DSPs by providing two balanced audio line inputs and outputs
- Minimizes interoperability problems by implementation of standards-based UVC and UAC drivers
