

ViewShare Tensioned Advantage Electrol

The ViewShare™ Tensioned Advantage® Electrol® integrates an HD camera into the screen, and is compatible with any free peer-to-peer video conferencing software. It features a USB connection to ensure ease of use for your customer.

Designed to eliminate the extra step of finishing the screen with trim, the Advantage line of projection screens is designed with ceiling trim already in place. Once the screen is installed, the screen's trim conceals the rough opening eliminating the need to complete additional trim work.

The ViewShare Tensioned Advantage features simple ceiling-tile installation that can be done in two stages. The screen case can be installed during the rough-in construction stage and the fabric assembly can be completed during the finishing stage.

Features

- HD camera integrated into the screen with easy USB plug and play connectivity
- Compatible with any free peer to peer software such as Lync or Skype
- Standard Silent Drive System to keep your screen whisper quiet
- Standard Low Voltage Control (LVC) to keep your screen operation flexible
- Smooth Roll Technology to keep your screen perfectly flat
- Slim-Tab, a lower profile and stronger tab design to keep your screen perfectly taut
- Simple Installation with a new installation kit and user-friendly packaging to keep you on schedule
- Support includes a comprehensive five-year warranty on the screen and a comprehensive three-year warranty on the HD camera
- UL Plenum rated white powder-coated case for a clean aesthetic
- Tensioning Cable System to prevent warping and ensure even lateral tension
- Standard black backing retains projected brightness on front projection surfaces
- Available with SCB-100 and SCB-200 (RS-232 serial control board) or Video Projector Interface (screen trigger) built into the case
- Decora-style, three-button wall switch
- Seamless surfaces

Optional Accessories:

- Radio Frequency Wireless Remote
- Infrared Wireless Remote
- Locking Switch Cover Plate
